

## Nursing RN to BS in Nursing Degree

### Bachelor of Science (BS.)

Graduates of associate degree and diploma programs of Nursing, after obtaining licensure, may enroll in the Bachelor of Science in Nursing degree program. The BS in Nursing degree requires a minimum of 120 credits and includes 3 graduate credits that may be applied to a Master of Science Degree Program in Nursing.

Credits are earned through transfer and advanced placement. A total of 35 advanced placement credits for nursing course work completed in a state-approved, nationally accredited associate's degree or diploma nursing program are awarded after registration of the first nursing course. After a transcript evaluation has been completed, the student completes the necessary individually determined King's core credits along with 26 credits of upper division nursing course work in the professional nursing major. The maximum of 60 transfer credits will be evaluated by the Registrar and posted on the student's transcript. Course work includes one clinical practice course in community health, with a focus on primary care and leadership. Students who already have a baccalaureate degree will need to take an additional 26 BS level nursing credits and 4 credits of any electives at King's to meet the minimum of 30 credits of residency and the 120 credits required for the Bachelor of Science Degree in Nursing. A cumulative grade point average of 2.0 or higher is required for admission.
