General Information		
<p>The 3+2 Chemistry-Chemical Engineering Dual Degree Program is a collaboration with the University of Notre Dame and Washington University in St. Louis. Students will spend three years at King's College taking mathematics, science, engineering, and general education CORE courses. Eligible students will then transfer to Notre Dame or Washington University for two years to complete engineering courses in their chosen field. Upon successful completion of the program, students will receive both a B.S. in Chemistry from King's College and a B.S. in Chemical Engineering from Notre Dame or WashU. (For more information, refer to the college catalog).</p>		

Total Credits earned at King's College = 99-100

Notes:

* CHEM 471^{PR} Advanced Inorganic Chemistry required for the King's degree satisfied by taking CHEM 40443 Inorganic Chemistry at Notre Dame or CHEM 461 Inorganic Chemistry at Washington University
